

We don't limit calling people on the phone to a certian company, but we do for deaf people? Thats not right and shouldn't be tolerated!!!! We have rights too! What happens when we need to make a 911 call and our vrs company isnt avaliable after 7pm? What if you couldn't call your family or friends after 7 pm? Or you could only call people with your phone carriers? This needs to be changed immediatly!
